

How to install archive package from ULR

Ruoyuan Li

March 1, 2018

- install Rtools from Rtools
- install devtools from cran for using `install_ulr` function
- find the ulr for the archive package, for mine, pgmm's link is `pgmm_1.2`.
- using command: `install_ulr("https://cran.r-project.org/src/contrib/Archive/pgmm/pgmm_1.2.tar.gz")`, and done.
